pri pošti 2113 Maribor  
Naklada 400  
brezplačen izvod

We kindly invite you to the solo exhibition **Invisible Companions** by **Barbara Kastelec**, which will be on view from Wednesday, **24 February 2021**, at the **artKIT gallery**.

The exhibition *Invisible Companions* through the magnifying glass reconstructs microorganisms as the origins of a new life. Based on the biological, physiological, ecological, anthropological, philosophical, and artistic study of individual microorganisms, the artist depicts fantastic scenes. In doing so, she focuses on the image of individual small particles, in addition to their biological structure. In addition to their biological structure, she is interested in how these microorganisms can interfere with larger organisms' lives and how their microcosm becomes part of the mosaic of a larger macrocosm into which humans, plants, and animals are intertwined.

Admission is free. Please, follow the recommendations of the NIJZ/NIPH while visiting the exhibition.
