You are kindly invited to view the spatially-specific multimedia installation **Sub Persona II** by the artistic tandem **PLATEAURESIDUE**, consisting of Eva P. Seifert and Aljaž Celarc. It will be on display in the KiBela space for art from **Monday, 12 April 2021**. **Domen Učakar** with the creative name **LIFECUTTER**, created music for the project and prepared a special audio-visual material for this exhibition.

Sub Persona is a video installation project that explores the importance and ethics of human forest management. It emphasizes the shared responsibility of all people to use modern methods to examine the intertwining of forest ecosystems and to develop sustainable management methods that take into account the simultaneous ecosystem, economic, recreational, and cultural functions of the forest that people too often take for granted. This multimedia installation, adapted to the architectural specifics of KiBela space for art, encourages reflection on human attitudes towards the environment and its changes in the contemporary world through sensory perception.

Admission if free. Please follow the recommendations of the NIJZ/NIPH while visiting the exhibition.
