Ana Sladetić: Parallel Presences

28 July–24 August 2022

MMC KIBLA / KiBela

You are cordially invited to the opening of the solo exhibition of **Ana Sladetić**, who continues fine art techniques into augmented and virtual realities and uses modern technologies and her own methods in revealing the works and interacting with them: **on Thursday, 28 July 2022, at 7 p.m. in KiBela.**

»I am interested in looking at the environment that surrounds people and what is around them (the procedures and consequences that the individual faces). I am also interested in the invisible elements embedded in those that surround us (what role they play in enabling visual communication). Combining traditional and contemporary media, my works are created using optics, light, pattern, mechanics, or heat. I often use drawing and printmaking techniques in interaction with video and performance. In my works of art, I study the themes of visual perception, epistemology, isolation, life on the edge of society, family life, and parallel presence.«

Immerse yourself in a once-in-a-lifetime experience of expanded visual art with an experience you've never experienced before.
