

# Iztok Maroh: Staging of the presented

25 February–19 March 2022

artKIT

We kindly invite you to the opening of **Iztok Maroh's** solo exhibition entitled **Staging of the presented**, which will take place **on Friday, 25 February 2022 at 6 p.m. at the artKIT gallery.**

Transparency, fragility. **Iztok Maroh**, who works as an artist, curator, and lecturer mainly in the field of artistic sculptural ceramics, in his continuous redefinitions of »artistic events«, explores the relationship between the visual, phenomenal world and human and how they deconstruct, establish, define and transform each other. What are the factors that condition these processes? What defines a person through observing an artwork and vice versa?

Admission is free. You can attend the event in accordance with the RVT protocol and NIPH recommendations.
