

Nika Rupnik: Space of Play

2–29 June 2022

artKIT

You are cordially invited to the opening of the solo exhibition of the artist **Nika Rupnik** entitled **Space of Play**, which will take place on **Thursday, 2 June 2022, at 6 p. m. at the artKIT gallery.**

Nika Rupnik's spatially specific installation is a space that is constantly changing with every movement of the viewer. The artist builds the space by layering images of architectural and urban structures on floating objects, creating a subtle atmosphere marked by feelings of alienation, transience and fragility. The multilayered spatial visual memory, which the artist recreates in experimental graphic techniques and light projections, gives the impression of infinite depth, where a multiplicity of relations between the viewer and the artwork is established in the interplay of lines, surfaces, shadows and light.

Admission is free.
