

KIBELA

Toni Meštrovič: Interleaving

2–24 September 2022

MMC KIBLA / KiBela

We kindly invite you to the opening of the *closed circuit* sound installation by multimedia artist **Toni Meštrovič**, which will take place on **Friday, 2 September 2022, at 7 p.m. at KiBela, space for art.**

With this exhibition, the artist continues his artistic exploration of the surveillance system, which he started 5 years ago, questioning it in the context of increasing social control as well as its creative potentials. The appropriation of the closed-circle structure characteristic of video surveillance allows him to explore the relationship between sound and image. Unlike his previous works, in which he used surveillance cameras, the exhibition in Maribor will focus exclusively on the medium of sound. Seven directional loudspeakers arranged in two closed circles, one of which is inserted into the other, emit sound received from the surroundings via a microphone, creating the conditions for a sound experience that preserves the acoustic feedback. The work is part of a series of experiments where, despite the technical stability of the installation, the outcome is unpredictable.
