Jiří Suchánek: Lambda Mirror

5 June–4 July 2026

MMC KIBLA/KiBela

You are cordially invited to the opening of Jiří Suchánek's solo exhibition *Lambda Mirror*, which will take place **on Friday, 5 June 2026, at 7 p.m. at KiBela, space for art.** As part of the opening, the artist will present a performance titled *Wormstorm*.

Exhibition curator: **Barbora Kundračiková**

Lambda Mirror by Czech sound and media artist Jiří Suchánek transforms the KIBLA Center into a resonant field of frequencies, reflections, and spatial relationships. The title combines two ideas—lambda as a symbol of wavelength, frequency, and invisible structures; and the mirror as a symbol of reflection, inversion, duplication, and the uncertainty of perception. The result is deeply poetic, yet precise.

The space becomes an acoustic and spatial instrument in which matter, sound, movement, magnetic impulses, geological memory, algorithmic systems, and bodily perception harmonize and influence one another. Individual installations—autonomous stations—do not merely depict hidden processes. They create situations in which sound, light, vibration, and movement allow the visitor to perceive how space is measured, disrupted, reflected, and transformed.
