Tanja Vujinović: AVANTGARDENERS
9. 10.–7. 11. 2026
MMC KIBLA/KiBela

You are cordially invited to the opening of multimedia artist **Tanja Vujinović's** exhibition ***AVANTGARDENERS***, which will take place on **Friday, 9. october 2026, at 7 p.m. at KiBela, space for art**.

AVANTGARDENERS is a multimedia installation by Tanja Vujinović that brings together moving images, 3D works, digital prints, virtual environments, and electronic sound. The exhibition unfolds as an imaginary environment populated by multiple forms of existence. Avatars, synthetic organisms, plants, flowers, insects, animals, and unfamiliar life forms occupy the same space.
Bodies change, exchange materials with their surroundings, and take on forms that belong simultaneously to biology, technology, and imagination.

The inhabitants of this world are AvantGardeners. They tend, cultivate, observe, and participate in the environments around them. Gardening becomes both an activity and a way of imagining coexistence: a practice of attention, care, and continual transformation.
This world is synthetic. Its digital surfaces, avatars, and constructed organisms emerge directly from contemporary technological culture while inventing other forms of nature. Gaming culture enters this world as a language for navigating multiplicity. Frames reminiscent of collectible cards, character interfaces, and other fragments of virtual-world culture become part of the physical exhibition.
