## NIKA OBLAK & PRIMOZ NOVAK

Artist collective Nika Oblak & Primož Novak examine contemporary media and capital-driven society as they dissect its visual and linguistic structure. With a touch of irony and the absurd their kinetic video installations question our values and essence and explore our relationship to advanced technologies, sharing the idea that we are becoming more and more caught in an automated and illusory routine. They reflect the prevailing perspective of individualism and how it diminishes community and solidarity. Oblak and Novak have exhibited worldwide, in venues such as the Sharjah Biennial, Japan Media Arts Festival in Tokyo, Istanbul Biennial and Transmediale in Berlin (DE).
